

The first Competitive Open Access call of the year 2025 (REDIB 2501) will open on April 1st

11/03/2025

The first Competitive Open Access call of the year 2025 (REDIB 2501) will open on April 1st, allowing national and international researchers to access cutting-edge technologies and services in clinical and preclinical biomedical imaging at attractive prices and with logistical advantages.

Additionally, expert personnel will provide the necessary support to maximize the outcome of research projects, offering personalized guidance in all aspects, from study design to image acquisition and analysis.

The Distributed Biomedical Imaging Network (ReDIB) is a Unique Scientific and Technological Infrastructure (ICTS) comprising four strategically distributed nodes across Spain: the Molecular and Functional Imaging Platform of the Cooperative Research Center in Biomaterials in San Sebastián (CIC biomaGUNE), the Advanced Translational Imaging Infrastructure of the National Center for Cardiovascular Research (TRIMA-CNIC) in Madrid, the Complutense Bioimaging Center (BiolmaC) of the Complutense University of Madrid, and the Biomedical Imaging Research Group with its Experimental Radiology and Imaging Biomarkers Platform (Imaging La Fe) at the La Fe Health Research Institute in Valencia.
