

Curriculum Vitae

Miguel Torres, Ph.D.

Date and place of birth: October 18, 1963 - Madrid, Spain.

E-mail: mtorres@cnic.es

CURRENT POSITION

2007-present Senior Scientist, Centro Nacional de Investigaciones Cardiovasculares (CNIC)

2022-present Coordinator of the CNIC Cardiovascular Regeneration Program

EDUCATION

M. Sc., Biology, Complutense University Madrid (UCM), 1986

Ph.D., Biochemistry and Molecular Biology, Autónoma University Madrid (UAM), 1991

PREVIOUS POSITIONS

2009 – 2012	Associate Director, Centro Nacional de Investigaciones Cardiovasculares, ISCIII. Madrid
2007 – 2015	Director, Department of Cardiovascular Development and Repair, CNIC, Madrid
2005 – 2006	Director, Immunology and Oncology Dept. Centro Nacional de Biotecnología, CSIC. Madrid
1999 – 2006	Tenured Group Leader. Centro Nacional de Biotecnología, CSIC. Madrid
1996 – 1999	Group Leader, Centro Nacional de Biotecnología, CSIC. Madrid
1992 – 1995	Postdoctoral Researcher, Max Planck Society, Goettingen, Germany
1991 – 1992	Postdoctoral Researcher, Centro de Investigaciones Biológicas, CSIC. Madrid
1988 – 1991	Predoctoral Researcher, Centro de Investigaciones Biológicas, CSIC. Madrid
1984 – 1987	Undergraduate student, Centro de Investigaciones Biológicas, CSIC, Madrid

SELECTED HONORS AND AWARDS

1988	Predoctoral Fellowship from the Spanish Ministry of Education and Science, Spain
1992	Postdoctoral Fellowship, European Molecular Biology Organization
1993	Postdoctoral Fellowship, European Union
1996-present	Member of the Spanish Society for Developmental Biology
2001-2004	Member “Faculty of 1000”
2003- present	Member of the Editorial Board of <i>Developmental Dynamics</i>
2004-2008	Member of the Scientific Advisory Board of the Biotech Oncostem Therapeutics
2009	Chair of the COST Action “HOX/ TALE transcription factors in Development and Disease”
2011- present	Member of the Editorial Board of <i>Developmental Biology</i>
2011	Scientific Committee of the 2014 Weinstein Meeting on Cardiovascular Development
2011	Scientific co-director of the CNIC application that obtained the Severo Ochoa Award
2012	Shortlisted for the “La Vanguardia” price “Scientific breakthrough of the year”
2012- present	Member of the Editorial Board of the <i>International Journal of Developmental Biology</i>
2013- 2017	Member of the New York Academy of Sciences
2014	Pfizer Price for the best basic science publication in Spain
2015	Member of the American Society for Developmental Biology
2015 -2017	Coordinator of the Fundamental and Systems Biology area for the Spanish Research Agency for Scientific Evaluation (ANEP)
2016- 2020	President of the Spanish Society for Developmental Biology
2016- present	Member of the National Stem Cell Bank Technical Committee
2018, 20, 22	Member of ERC LS4 Consolidator grant evaluation panels
2019- present	Member of the European Molecular Biology Organisation (EMBO)
2020- present	Member of the Academia de Ciencias de America Latina (ACAL)

- 2021- present Associate Editor of *Science Advances*
2022, 23, 24 Member of the selection committee for the EMBO Installation Grants call
2024 ERC Advanced Grant

BIOSKETCH

My research career has focused on understanding the regulation of embryonic development, organogenesis and regeneration. My fundamental contributions have dealt with the understanding of how gene activity regulates the processes of regionalization and tissue / regeneration homeostasis. During my PhD (CIB-CSIC) I was trained in the *Drosophila* model, and during the postdoctoral period (MPI- Germany) I majored in vertebrate development and the use of mouse genetics methodology. In 1996 I started my independent group, studying processes of pattern formation of the vertebrate limb and heart. Our contributions have been modified concepts rooted in the field of developmental biology for decades (Nature 1998 and 1999; Development 2000, 2014; Science 2011; Science Advances 2020; Nat Comm 2021) and are relevant for understanding process of organ regeneration (Development 2005). A large part of our work on organogenesis has been based on the study of genes encoding homeodomain transcription factors, area in which we have contributed to understanding their tissue patterning roles and the molecular basis underlying these functions (Dev Biol.2005; Circ. Res 2010; Cell Reports 2013). In the tissue homeostasis field, we have contributed to understanding the conservation of cell death pathways in metazoans (EMBO J 1998; 2002), we have provided the first evidence of endogenous cell competition in vertebrates (Nature 2013), identifying pluripotency protection in embryonic stem cell pools as one of its roles (Dev Cell 2017) and we have explored the roles of cell competition in heart development and homeostasis (Cell Reports 2014; Scientific Reports 2016; Development 2019). Recently, we were granted an ERC Adv grant on this topic (2024). We have also established and exploited new genetic approaches allowing clonal analysis, which has allowed us to describe new relationships and restrictions on vertebrate lineages (Development 2007, Blood 2014, Bone 2018, Dev Cell 2020; Development 2023). In the last decade, our work has expanded to the understanding of how cell behavior determines morphogenesis processes and tissue homeostasis, which led us to the implementation of new techniques, including new genetic tools and new methodologies for *in vivo* time-lapse 3D video microscopy. In this area, we have established the first comprehensive live microscopy methodology applicable to heart development in the mouse, which has allowed us to formulate a new model for linear heart tube formation (Elife 2017; Nature Cardiovascular Research 2022). In the last 15 years my research activity has combined with scientific management, first in CNB, where I assumed the leadership of the Department of Immunology and Oncology (2005-6) and then in the CNIC, as founding director of the Department of Cardiovascular Development and Repair in 2007. As Director of Department, I have been responsible for the recruitment and design of the scientific strategy. In addition, I assumed in 2009 the position of Associate Director of the Centre, acting until 2012 as the on-site scientific head of the institution, contributing to the recruitment of scientists, design of infrastructures and scientific strategy. Together with Dr. Valentín Fuster, General Director of CNIC, I was the co-IP of the project awarded with the CNIC Severo Ochoa in the first call of this program (2011). Currently, I coordinate the Cardiovascular Regeneration Program at CNIC.

TEACHING

Spanish Postgraduate and Master Courses

1991, 1995-2003	Proliferación y diferenciación celular y desarrollo. CIB (CSIC), U Alcalá de Henares, UC Madrid, UA Madrid
1996	Biología del desarrollo. U. Valladolid
1996-2005	Activación celular y apoptosis en el sistema inmune. UA Madrid
1997-1998	Bases bioquímicas y moleculares de la función celular III. UA Madrid
1998	Biotecnología. UA Madrid
1998-2000	Avances en biología del desarrollo. UA Madrid
2000	Biotecnología: una Mirada al futuro. U Santiago de Compostela
2001	La revolución biomédica: los diez últimos/próximos años. U Valladolid
2001	Diferenciación y desarrollo. U de Salamanca
2001	El genoma humano al descubierto. U Santiago de Compostela
2002	Biología Molecular del desarrollo. UA Madrid
2004	VIII Curso nacional de transplante de órganos, células madre y terapia. U Zaragoza
2005	Las fronteras de la Biología Molecular. Centro de Ciencias de Benasque. Huesca
2008-2024	Cardiovascular Diseases Module (BMM9), Master on Molecular Biomedicine, UA Madrid (Coordinator and lecturer)
2017	Universidad Menéndez Pelayo-CIB "Master in Molecular and Cellular Integrative Biology"

International Courses

1994	Manipulating mouse embryonic stem cells. INSERM, Le Vesinet, Paris, France
1995	New Trends in Molecular Biotechnology: Basic and Applied Aspects. U Louvain-La-Neuve, Brussels, Belgium
1995	EMBO practical course on mouse and chicken development. Biophysical Chemistry Institut, Max Planck Society, Göttingen, Germany
1999	Atelier transgenèse, INSERM, Toulouse, France
1999	Advanced Course in Molecular Biology Techniques. Instituto Venezolano de Investigaciones Científicas, Caracas, Venezuela
2001	Biology and Mathematics: Mathematics in Embryonic Development and Cancer Escuela de Matemáticas "Lluís Santaló" UIMP, Santander, Spain
2006	Basic Molecular Processes in Organisms and their Pathology. Escuela de Biología Molecular "Eladio Viñuela. UIMP, Santander, Spain
2010	Graduate School Advance Course on Molecular Medicine-Multidisciplinary Solutions to Medical Challenges, BIOCENTER, Oulu, Finland
2019	Biomedicine course for postgraduates, Gulbenkian Research Institute, Lisbon, Portugal

SELECTED INVITED LECTURES

- 2000: Simposio internacional Fundación Ramón Areces: "Transgénesis animal en biología, medicina y biotecnología. Madrid
- 2001 14th Congress of the International Society of Developmental Biology, Kioto, Japón
- 2002 Workshop on "Limb Development". Fundación Juan March, Madrid
- 2002 Annual meeting of the French Society of Developmental Biology, Toulouse
- 2003 Workshop on "Developmental Mechanisms in Vertebrate Organogenesis". Fundación Juan March, Madrid
- 2003 EMBO Workshop "Boundaries in Development: 30 years of Progress" EMBL, Heidelberg, Alemania
- 2004 8th International Conference on Limb Development and Regeneration. Dundee, UK
- 2004 ESF conference on Cellular and Molecular Basis of Regeneration. San Feliu, España.
- 2004 II CRG Anual Symposium on "The cell in Development"
- 2005 British Council Opening Doors Workshop: New Imaging Techniques in Biology, Nerja (Malaga), Spain
- 2006 Workshop on Homeodomain Proteins, Hematopoietic Development and Leukemias, Riva del Garda, Italy
- 2006 9th International Conference on Limb Development and Regeneration. Awaji, Japan
- 2007 British Council "Opening Doors" workshop: "Regeneration and Cell Therapy" Cardona, Spain
- 2009 Symposium on "Tissue Specification and Organogenesis", Gulbenkian Foundation, Lisbon, Portugal
- 2009 Heart Repair – 3rd Annual General Meeting, Berlin, Germany
- 2009 American Heart Association Scientific Sessions, Orlando
- 2010 EU Marie Curie symposium on "Developmental Signaling Networks"
- 2010 11th International Conference of Limb Development and Regeneration, Williamsburg, USA
- 2010 Gordon Research Conference on "Molecular Mechanisms In Lymphatic Function & Disease", Barga, Italy
- 2011 XXXIV Congreso de la Sociedad Española de Bioquímica y Biología Molecular, Barcelona, Spain
- 2011 VI Congreso de la Sociedad Española de Terapia Génica y Celular, Zaragoza
- 2011 EMBO Workshop - Lineage Commitments: Emphasis on Extraembryonic-Embryonic Interfaces, Leuven, Belgium
- 2011 NYAS Meeting: Evolving Challenges in Promoting Cardiovascular Health, Barcelona
- 2012 12th International Conference on Limb Development & Regeneration Meeting: HoxA cluster epigenetic regulation underlies cell-autonomous generation of late limb proximodistal pattern. Quebec, Canada
- 2012 45th Annual New York Cardiovascular Symposium: Major Topics in Cardiology Today: Embryogenic Development of the Heart: Implications for Stem Cell Regeneration in the Adult. New York, United States of America
- 2012 "Cell competition in the mammalian epiblast eliminates cells with lower Myc levels". Cornell University, NY, USA
- 2013 "Myc-driven Cell Competition in the Mammalian Embryo" Institute of Biomedical and Biomolecular Science (IBBS) Portsmouth, UK
- 2013 46th Annual New York Cardiovascular Symposium: Major Topics in Cardiology Today: Embryonic Development of the Heart: The Competitive Nature of Cardiac Development
- 2013 Hox-related and unrelated functions of TALE-homeodomain transcription factors during mammalian organogenesis. International Conference: Hox and TALE Transcription factors in Development and Disease. Egmond aan Zee, The Netherlands
- 2013 Andalucía International University Current Trends in Biomedicine Conference on 2The Hemato-Vascular System: Development and Disease. Clonal Analysis of the Early Endothelial and Hematopoietic Lineages in the Mouse. Baeza, Spain
- 2013 "Cell Competition in Mammalian Organogenesis". Second Meeting of the Portuguese society for Developmental Biology. Lisbon, Portugal
- 2014 Cell competition and tissue homeostasis in Mammals. Max-Planck Center for Molecular Cell Biology and Genetics. Dresden, Germany

- 2014 Cell Competition in Mammalian Development and Tissue Homeostasis. 47th Meeting of the Japanese Society for Developmental Biology. Nagoya. Japan
- 2014 Cell Competition in Mammalian Development and Tissue Homeostasis. The 2014 Santa Cruz Developmental Biology Meeting, UCSC
- 2014 Jonah Platt Stem Cell Lecture Series. Eli and Edythe Broad Center of Regeneration Medicine and Stem Cell Research, UCSF
- 2014 Role of Anabolism Regulation in Cardiac Development and Homeostasis. American Heart Association Scientific Sessions 2014, Chicago, USA
- 2015 Speaker at the Max-Planck Institute for lung and heart disease student's symposium, Ringberg Castle, Munich
- 2015 Keynote speaker at the Congress of the Society for Cell Biology, Spain
- 2015 Speaker of the Presidential symposium at the Congress of the Society for Developmental Biology, USA
- 2015 Speaker at the 1st Symposium of Cell Competition in Development and Cancer, Kyoto
- 2016 Simposio Internacional: Cell competition, apoptosis and cancer. Fund. Ramón Areces
- 2016 Heart Failure Winter Meeting. ESC. Les Diablerets, Suiza
- 2016 Janelia Workshop "Imaging Mouse Development" VA, USA
- 2016 Myology Congress 2016. Lyon, France
- 2016 39th Annual Meeting of the Molecular Biology Society of Japan. Mishima, Japan
- 2016 The Allied Genetics Conference 2016 (TAGC), Orlando, USA
- 2017 The Stem Cell Institute at the University of Minnesota external seminar series. USA
- 2017 International Society for Developmental Biology Congress, Singapore
- 2017 Gordon Research Conference on Developmental Biology, Mount Holyoke, MA, USA
- 2017 14th International Limb Development and Regeneration Conference, Edinburgh, UK
- 2017 3rd International Symposium on Cell Competition, Hokkaido Univ., Sapporo, Japan
- 2018 EMBO workshop "Imaging Mouse Development", EMBL, Heidelberg (Germany)
- 2018 Gordon Research Conf., Cardiac Regulatory Mechanisms, Colby-Sawyer College, NH (USA)
- 2018 Keynote speaker at the Mexican Developmental Biology Society Congress, Puebla, Mexico
- 2019 Keystone Symposium on *Cellular Plasticity: Reprogramming, Regeneration, and Metaplasia*. Keystone, USA
- 2019 International Symposium on Cardiovascular Regeneration and Repair, Madrid, Spain
- 2019 Symposium on Cell Competition in Development and Disease, Lausanne, Switzerland
- 2019 EMBO members Meeting 2019. Heidelberg, Germany
- 2020 Congress of the Spanish Society of Cardiology, virtual meeting
- 2021 EMBO "Ascona" virtual meeting on Cardiomyocyte Biology
- 2021 Virtual Congress of the European Society of Human Genetics
- 2022 Cardiovascular Bioengineering Meeting. CVBE DZHK/NIH. Goettingen, Germany.
- 2022 20th International Conference of the International Society of Differentiation-British Society for Developmental Biology. Malta
- 2022 Janelia/HHMI Conference "Imaging Mouse Development". Janelia Institute, Virginia, USA
- 2022 Cardiovascular Health Congress 2022. Spanish Society for Cardiology
- 2023 International Symposium on Myocardial Regeneration in chronic Heart Failure. El Gouna, Egypt
- 2023 New frontiers in cardiac and vascular biology symposium. Weizmann Institute, Israel
- 2023 37th Meeting of the ISHR-European Section. Porto, Portugal
- 2023 Congress of the European Society of Cardiology. Amsterdam, The Netherlands
- 2024 2nd JST International Symposium on Dynamics of Cellular Interactions in Multicellular Systems. Kyoto, Japan
- 2024 Foster Talks seminar series at the Department of Physiology, Development and Neuroscience (PDN) at the University of Cambridge

COURSES AND MEETINGS ORGANIZED

- 1995 EMBO practical course on mouse and chicken development". Max-Planck-Institute of Biophysical Chemistry. Goettingen, Germany
- 1999 I Simposium nacional de transgénesis animal. CNB, CSIC. Madrid, Spain

- 2000 International Symposium on Animal Transgenesis in Biology, Medicine and Biotechnology. Fundación Ramón Areces, Madrid, Spain
- 2001-3 Workshop: Avances en Biología Molecular por Jóvenes Investigadores en el Extranjero. Centro Nacional de Biotecnología, CSIC, Madrid, Spain
- 2003 Juan March Meeting on Developmental Mechanisms in Vertebrate Organogenesis. Madrid, Spain
- 2005 British Council "Opening Doors" Workshop: New Imaging Techniques in Biology. Nerja, Málaga, Spain
- 2006 EMBO Workshop on "Homeodomain Proteins, Hematopoietic Development and Leukemias" Riva del Garda, Italy
- 2007 CNIC-UNIA Workshop on the Regulation of Pluripotency during life cycle: implications for embryonic development and regenerative medicine, Baeza, Spain
- 2008 CNIÓ Cancer Conference on Development and Cancer, Madrid, Spain
- 2008 10th International Conference on Limb Development and Regeneration, Euroforum and the Auditorium of San Lorenzo de El Escorial (Madrid), Spain
- 2009 Symposium on developmental biology from a cell biology and biophysics perspective. CNIC, Madrid, Spain
- 2009 Workshop on Hox and Tale Homeoproteins in Development and Disease, Carmona, Seville, Spain
- 2012 Symposium on "HOX and TALE Transcription Factors in Development and Disease", El Escorial, Madrid, Spain.
- 2014 Weinstein International Conference on Cardiovascular Development. Madrid
- 2016 International symposium: Cell competition, apoptosis and cancer. Fundación Ramón Areces. Madrid
- 2019 Limb Development and Regeneration: New tools for a Classic Model System, PRBB, Barcelona,
- 2019 European Developmental Biology Congress 2019. Alicante, Spain
- 2022 CNIC Conference: Cardiac Regeneration: from Mechanisms to Therapies. Madrid, Spain

PhD THESES SUPERVISED

- 2002 Cristina Clavería, Title: Análisis de la regulación de la muerte celular programada en *D. melanogaster* y su conservación en vertebrados, Autonomous University of Madrid, Faculty: Science, First Class “Cum Laude”
- 2003 Nadia Mercader, Title: Role and Regulation of Meis Genes during Proximodistal Limb Development in Vertebrates, Autonomous University of Madrid, Faculty: Science, First Class “Cum Laude”
- 2005 Valeria Azcoitia, Title: Genetic Analysis of the Homeobox gene Meis1 during mouse embryogenesis, Autonomous University of Madrid, Faculty: Science, First Class “Cum Laude”
- 2007 Carlos García-Arqués, Title: 4-D Computerized clonal analysis of the developing mouse limb, Autonomous University of Madrid, Faculty: Science, First Class “Cum Laude”
- 2010 Catalina Ana Rosselló Castillo, Title: Role of the homeobox gene Meis I in hematopoietic stem cell generation in the vertebrate embryo: a functional analysis, Autonomous University of Madrid, Faculty: Science, First Class “Cum Laude”
- 2010 Alberto Roselló Díez, Title: New genetic strategies to analyze cell behaviour and gene function in the mouse, Autonomous University of Madrid, Faculty: Science, First Class “Cum Laude” / First National Award
- 2011 Clara García Andrés, Title: Identification and functional analysis of regulators of vertebrate limb pattern formation, Autonomous University of Madrid, Faculty: Science, First Class “Cum Laude”
- 2013 Daniel Mateos San Martín, Title: The DNA binding profile of TALE Proteins in the Embryo. Autonomous University of Madrid, Faculty: Science, First Class “Cum Laude”
- 2014 Cristina Villa del Campo, Title: Papel de la competición celular e el desarrollo del embrión de ratón. Autonomous University of Madrid, Faculty: Science, First Class “Cum Laude”
- 2017 Covadonga Díaz-Díaz, Title: Live analysis and function of Myc-mediated cell competition in mouse pluripotent stem cells. Autonomous University of Madrid, Faculty: Science, First Class “Cum Laude”
- 2019 Ghislaine Lioux: Retrospective clonal analysis of the developing mouse heart. Autonomous University of Madrid, Faculty: Science, First Class “Cum Laude”
- 2019 Alejandra Cristina López-Delgado. Meis transcription factors in axial development. Autonomous University of Madrid, Faculty: Science, First Class

- 2019 Noelia Muñoz-Martín. The role of Meis transcription factors in cardiomyocytes. Autonomous University of Madrid, Faculty: Science, First Class “Cum Laude”
- 2021 Jose Antonio Valverde. P53 and Puma in Pluripotent Cell Competition. Faculty: Science, Autonomous University of Madrid, First Class
- 2021 Ester de la Cruz Crespillo. Director Miguel Torres. The role of Meis transcription factors in the epicardium. Faculty: Science, Autonomous University of Madrid, First Class “Cum Laude”
- 2022 Isaac Esteban. Director Miguel Torres. Pseudodynamic analysis of heart tube formation in the mouse embryo. School of Telecommunication, Universidad Politécnica de Madrid, First Class “Cum Laude”
- 2022 Lin Li-Bao. Director Miguel Torres. Regulation of Myc expression in Mouse Pluripotent Stem Cells and its Relevance in cell Competition. Faculty: Science, Autonomous University of Madrid, First Class “Cum Laude”
- 2023 Miquel Sendra. The spatio-temporal sequence of cardiovascular precursor specification in the primitive heart tube of the mouse embryo. Faculty: Science, Autonomous University of Madrid, First Class “Cum Laude”
- 2023 Morena Raiola. A quantitative study of myocardial motion and deformation during early mouse morphogenesis. School of Telecommunication, Universidad Politécnica de Madrid, First Class “Cum Laude”

PEER REVIEW

- 1996-present External reviewer for National and International Agencies in the evaluation of research grant applications and of scientific positions: Plan Nacional and ANEP (Spain), ICREA (Cataluña), IKERBASQUE (País Vasco), CAM (Madrid), NSF (USA), FONCYT (Argentina), FCT (Portugal), SFI (Ireland) and the European Commission (ERC)
- 6-times Member of the Grant Evaluation and follow-up Panels for the National Program of Molecular and Cellular Biology
- 1996-present Reviewer of manuscripts for Nature, Science, Developmental Cell, Cell Stem Cell, Science Advances, Nature Communications, PNAS, PLOs Biology, EMBO J, Development, Blood, Developmental Biology, Scientific Reports, Mechanisms of Development, Developmental Dynamics and others
- 2017, 2019 Evaluator for the “Canada Excellence Research Chairs”
- 2020 Member of the HCERES evaluation panel for the Institut Pasteur Department of Developmental Biology and Stem Cells

Madrid, April 2024
